

dear sirs-- i am a deeply indebted self educated citizen of the us of a...i include this description in order not to elude you of my demographic-- but the order of my business is this... the basic premise of the press is to report the events surrounding the public and when you exclude the base rights of the public and their view and succumb to a controlled manipulated propagandized agenda you will lose the support of the people and the thinking public who will not be dumbed down. so as a person who believes in voice and humanity please vote against 02-277. thank you for your time.
